

Another old physician with whom I was well acquainted, as he was my father's family physician, was Dr. Thomas Dunlap, who resided on the south side of State street, next west of the canal, though there was no canal there when I was a boy. Dr. Dunlap must still be remembered by many of the citizens. He was near-sighted, and, in the street, always carried his cane under his left arm.

From a Letter on "Schenectady Half a Century Ago"

dealings between the colonists and the natives.

Portraiture was an old art at that time in Europe and in older colonies of North America, but in frontier settlements such as Schenectady it was comparatively rare. The portrait was presented to the Society by C. F. R. Ogilby of Washington, D. C. in 1949.

Other portraits in the Schenectady Society's collection include:

John Broadhead Romeyn, a former minister of the First Presbyterian Church; Dr. Thomas Dunlap, an eminent physician in Schenectady in the early 1800's; Aaron Varstrand, son-in-law of Dr. Dunlap; Benjamin Franklin Potter, a former district attorney of Schenectady; Judge Platt Potter, brother of B. F. Potter and a justice of the New York Supreme court; Henry R. Yates; William Schermerhorn; Maria Dunham, and John Gerritt Veeder.
