Schenectady, N. Y.

Vol. XXIV. March 14, 1901. No. 21.
AIDRIW Y. V. RAYIOBD, 0.

Classical languages are substituted for the ancient, more Mathematics and English studies is increased. After Sophomore year a large list of electives is offered. This differs from the A. B. course chiefly in the omission of Greek and the substitution therefor of additional work in modern languages and science. This differs from course 4 in substituting special work in Electrical Engineering for some of the General Engineering studies. This course is offered in cooperation with the Edison General Electric Company.

7. Graduate Course in Engineering Leading to the Degree of C. E.—A course of one year offered to graduates of courses 4, 5 or 6.

There are also special courses in Analytical Chemistry, Metallurgy and Natural History. For catalogues or for special information, address BENJAMIN H. RIPTON, Dean of the College, Schenectady, N. Y.

DEPARTMENT OF MEDICINE.

Albany Medical College.—Term commences last Tuesday in September. Four years strictly graded course. Instructed by lectures, recitations, laboratory work, clinics and practical demonstrations and operations. Clinical advantages excellent.

Expenses.—Matriculation fee, $10; annual lecture course, $30; laboratory course, each $10; dissecting fee, $10. For circular address, WILSS G. TUCKER, M. D., Registrar, Albany, N. Y.

DEPARTMENT OF LAW.

Albany Law School.—This department of the university is located at Albany, near the State Capitol. It occupies a building wholly devoted to its use. The course leading to the degree of LL. B. is two years, each year is divided into two semesters.

Expenses.—Matriculation fee, $10; tuition fee, $100. For catalogues or other information, address, NEWTON FIERRO, Dean.

ALBANY LAW SCHOOL, ALBANY, N. Y.

ALBANY COLLEGE OF PHARMACY.

Examinations held in Albany Medical College. Annual lecture term commences Monday, Oct. 1. For catalogue and information address. THOMAS J. BRADLEY, Ph. G., Secretary.

ALBANY, N. Y.

When You Buy Furniture

Look elsewhere—look here. Comparison is our delight, and the more you know about furniture the surer we are of making a sale. Furniture for every use, practical, durable and surprisingly low priced.

OLDEST UNION GRADUATE DEAD.

Horace O. Moss, '28, Passes Away in New Berlin at the Advanced Age of Ninety-Two.

Horace O. Moss, '28, who was commonly believed to be the oldest graduate of Union and who was the oldest member of Kappa Alpha, the oldest college fraternity, died at New Berlin, N. Y., on March 2. Mr. Moss was consistently loyal to his alma mater throughout his life and many times showed his deep interest in her welfare. A New Berlin paper says of him:

"Horace O. Moss was born Jan. 18, 1809, at White Store, a hamlet on the Unadilla river, about 12 miles south of New Berlin, where his father, Mr. Joseph Moss, carried on a trading business, furnishing to the early settlers such things as were needful to them, taking in return their soda ash, which was about the only merchantable product of their toil.

"Into the hardships of this frontier life was the subject of this sketch born, and who can tell but that the struggles of those early days, was in part at least, the discipline which wrought the sturdy manhood that future years developed?

"In 1812 the family moved to New Berlin, where Mr. Joseph Moss became manager of the Farmers & Mechanics Mfg Co., which from a small beginning in a wooden cotton mill, grew to a large and prosperous business and for forty years was the chief industry in this township. During these years of prosperity, there was visible the hand of Mr. H. O. Moss, who became manager and whose business skill and integrity contributed largely to the success of this business enterprise.

"In the early fifties, Mr. Moss established a bank in Sandusky, O. This business was carried on successfully until the establishment of National banks, when this institution was among the first to receive a charter, and became the First National Bank of Sandusky. He retained an interest in this bank until his death.

"As a businessman he was successful, having the confidence and respect of all who knew him. Mr. Moss had the advantage of a good education, opportunities for which were not as favorable then as now. He attended school at Hartwick Seminary, was a student at Hamilton college 1825-27, and graduated at Union college 1828, At the time of his death he was the oldest living graduate of any American university. We clip the following from the 'Boston Transcript' of January 26:

"Mr. Moss resides at New Berlin, N. Y., and gives daily attention to his many business interests. In November last was observed at Schenectady, N. Y., the seventy-fifth anniversary of the founding of Kappa Alpha—the first of the Greek letter college fraternities. Mr. Moss' name was placed at the head of the committee of arrangements. Mr. Moss did not venture to participate in the three-day festival, but by several letters, delightfully reminiscent, and each containing a check for expense account, he made it evident that he is still an enthusiastic fraternity and college man.'

"As a citizen he always manifested a deep interest in the welfare of our village. He was one of the promoters of the New Berlin Academy, aiding in the purchase of the site and the construction of the building. He served as secretary of the board of trustees for seven years, and often helped to save the institution from financial disaster. He was one of the substantial factors in getting both the O. & W. and the Unadilla Valley R. R. into our village. It was largely his patriotic spirit that secured the beautiful soldiers' monument which crowns Cemetery hill—he took great pleasure in furnishing the site, building the foundation for that structure—a foundation that has stood for eigh-
teen years without the slightest deflection, so well was the work done.

"To every worthy object he has been a generous contributor.

"He was a firm friend of the government in the dark days of the civil war. In politics he was a staunch republican. Above all he was an earnest Christian, whose loyalty to his church was proven by his faithful attendance and liberal support.

"Mr. Moss was married Sept. 30, 1832 to Emeline B. Knapp, daughter of Mr. Charles Knapp, one of the early settlers of New Berlin. She died Feb. 23, 1845, leaving two daughters and one son, of whom only the son, Charles, residing in Sandusky is now living. In 1846 he was united in marriage to Isabel White, daughter of the late Samuel White of this place. Mrs. Moss died about a month ago, thus interrupting only for a few days the happy union of more than half a century. The tender devotion with which he cared for her during her long illness, was only another manifestation of that kindness of heart, which prompted him to many generous deeds.

"Mr. Moss has enjoyed exceptionally good health, and up to within a few weeks was seen almost daily about our streets, where his presence was always welcome. He will be greatly missed in this community, where he has so long lived and enjoyed the respect of all our people."

The statement that Mr. Moss was "the oldest living graduate of any American university" will need confirmation. Mr. Moss graduated when but nineteen years of age. Recent newspaper almanacs show that men are still alive who graduated at institutions several years previous to 1828.

Every student at Yale is to be taxed $7 annually for the support of the crew, track team, golf and tennis associations.

Ten sophomores have been suspended from the University of Iowa for kidnapping the president of the class of 1904 at the time of the freshman banquet.

---

PHARMACY COMMENCEMENT.

Thirty-One Men Graduated at the Albany Department.

Interesting commencement exercises at Odd Fellows' hall and a banquet at the Hotel Ten Eyck made the graduation of the class of 1901, Albany College of Pharmacy Tuesday night one of the most delightful and memorable events in the career of the young students. Odd Fellows' hall contained a brilliant gathering, including sisters and other lady friends of the students who likewise joined in the social function which followed at the Ten Eyck.

Following the prayer by Rev. J. Walter Sylvester came the address of welcome by Dr. Willis G. Tucker. Dr. Tucker spoke in his characteristic happy manner and was received with hearty applause. The president of Union University conferred the degrees. The address to the graduates was delivered by Rev. J. Walter Sylvester. It was an eloquent and impressive discourse, placing before the young pharmacists the significance of their success and of the firm foundation achieved for the fulfilling of responsibilities which confronted them in the business world. At the conclusion of his address the students showed their appreciation by applause. George L. Southworth's valedictory was one of the features of the program. He thanked the faculty on behalf of the class for their conscientious training and bade farewell to those who formed the happy associations of his college days.

Dr. Alfred B. Huested then awarded the prizes to the students receiving highest percentages in the subjects mentioned. Conspicuous among the winners was Miss Catherine Ross of Hoosick Falls, the only lady member of the class.

The prize winners are: For best senior in all branches, $20 in gold, Earl J. Vosburgh; honorable mention, Fred L. Albee, Herbert A. De La Mater, Charles M. Otis, Jr.; Alumni association prize for best work in pharmaceutical laboratory for year, $20 in gold, Catherine Ross;
honorabk mention, Earl J. Vosburgh, Charles M. Otis, jr.; prize in microscopy, $10 in gold, Fred L. Albee; honorable mention, Frank M. Post, William A. Larkin; junior prize for best examination in all branches, $15 in gold, Andrew H. Witte; honorable mention, George G. Lenney, John E. McManey, John J. Monahan; prize offered member of junior class doing best work in chemistry, $15 in gold, Andrew H. Witte; honorable mention, John J. Monahan, L. Clayton Barrows, Lawrence H. Burke; prize offered junior in pharmaceutical laboratory, $15 in gold, honorable mention, H. B. Greeman, F. C. Barrows, J. D. Sauter.

The graduates are: Fred Leeman Albee, Walton; Orville Scott Clark, Jacob Cohen, Albany; Herbert Andrew De La Mater, Athens; Casper James Dobrocinski, Schenectady; Francis Henry Donaldson, Gilbertsville; John Henry Dwyer, Oswego; Charles Harvey Fox, Boonville; Frank Huddleston Havens, Albany; Verne Hicks, Syracuse; William Bailey Hogan, Albany; William Atwood Larkin, Plattsburg; Jesse Washington Leavitt, Dolgeville; James Harvey McCullough, Cohoes; James Harold McCullough, Ballston; Daniel Rice, Cambridge; Catharine Ross, Hoosick Falls; George Saunders Slade, Oneonta; George Laurence Southworth, Syracuse; Guy Gardner Stephenson, Johnstown; Charles Neil Stewart, Rensselaer; Earl Jonas Vosburgh, West Copake.

Fred Welcome Churchill, Brandon, Vt.; Fred Van Ness Corey, Gloversville.

MEDICAL SOPHOMORES DINE.

The sophomore class of the medical department held its banquet at the Globe hotel Tuesday evening. The entire class was present although the freshmen endeavored to prevent several of the members from attending.

J. C. Canfield was toastmaster. The following toasts were responded to: "Our Last Banquet," Charles Marsh; "The Ladies," Mark O'Meara; "Looking Backward," George E. Poore; "Looking Forward," James Vander Veer; "The Proper Use of Intoxicants," Harry Chandler; "The Medical Student," Daniel Boyd; "The Value of a Bluff," M. Shafter; "Our Professors and Faculty," Thomas O'Connor; "General Critic," Dr. Willis G. MacDonald.

THE CITY LIBRARY.

Since last week developments have taken place which make the situation of the Carnegie library in the college pasture rather improbable. Considerable opposition to building the library upon Union street has arisen in several quarters. Some people claim that Union street is not a central location, while others say that the library should be built in Crescent Park, the only green spot that Schenectady now owns. The matter will probably be formally acted upon in the near future.
STATE SCHOOL OF ELECTRICAL SCIENCE.

A bill has been introduced in the State Legislature providing for the establishment of a laboratory of electrical engineering in connection with Union college in the city of Schenectady. The bill carries an appropriation of $150,000 for the erection and equipment of the laboratory and $25,000 a year for its maintenance. In consideration of this assistance from the State, the state is to have the title to the land and twenty-five four-year free scholarships in electrical engineering in the college.

The cry of paternalism already raised against the passage of this bill is hardly consistent with the past action of the State in educational matters. There is abundant precedent for such action found in our general educational policy; the State normal schools, the Department of Regents, the State Traveling Libraries all owe their existence to this form of paternalism. That these are distinctly State institutions is no refutation of the argument. Cornell university received substantial State aid at the time of its establishment. Alonzo B. Cornell, then Governor of New York, secured the assignment of valuable lands, coming to the State from the National government. This property became part of the endowment of that institution, which in charge for the benefaction bestowed, has ever since granted a free scholarship to every Assembly district in the State. It would be impossible to estimate the value to the body politic of these scholarships. It has furnished a means by which hundreds of intelligent young men, hampere by lack of necessary funds, have been able to gratify a commendable ambition for collegiate education. Other than this the State has established and maintains at Cornell the State School of Forestry, a department of instruction which has been developed in this country only in recent years, and which already promises to become of inestimable economic value. No complaint has been made regarding this particular example of paternalism. Everybody recognizes its value and endorses the action of the State in the money therein expended.

The proposition of Union college comes before the people in much the same light as did the establishment of the State School of Forestry. It may not present so many broad arguments in its favor from the standpoint of purely State economic, but it will appeal to the people as does every proposition which brings educational facilities within easy acquirement by the general public. The establishment of a State School of Electric Science is a proposition unique in itself. By so doing the State would add immeasurably to its prestige as an educational center. The school would become the acknowledged head of information and development in this field of scientific research. There is no department of education or field of investigation which promises more lucrative employment than that of electrical engineering. The unusual and rapid development of the science in recent years with its applications to commercial activities has created a demand for men of high scientific education.

For the development and care of a State school of electrical engineering no better instrument could be found than Union college. It is one of the oldest institutions of the country and has vigorous educational life. Its location in Schenectady is especially well adapted for such a school. In that city is the General Electric company, the largest establishment of its kind in the world. Its machine shops and other buildings cover nearly forty acres of ground and it employs nearly six thousand persons in various capacities. Already Schenectady has become the center of electrical thought and development and Union college should most properly become the custodian and trustee of a State School of Electrical Engineering.

Iowa University is represented in the State oratorical contest this year by a negro.
Fast New Hampshire Five Takes the Garnet Into Camp.

Union men had their first opportunity of witnessing the basketball five play on Saturday night, when the Dartmouth Medical College team were the victors in a fast game. The Dartmouth men, managed by John W. H. Pollard, are making an extensive trip of two weeks' duration. They have won a number of victories over fast teams. The evening before they played in Schenectady they were defeated by a margin of three points by R. P. I., which has turned out the fastest college five in New York state.

Union's work, while not remarkably strong, was a revelation to every student on the Armory bleachers. It had been commonly supposed that but one or two of the men were fast players. The contrary proved true. Each man played a snappy game and used head-work throughout the contest. Team-play was always in evidence.

Dartmouth showed the greater strength and endurance. Though her men did not pass the ball with greater precision except in the latter part of the second half, they were generally superior in blocking throw.

The game started off at a rapid pace. Union was more alert, and two baskets were quickly scored. Dartmouth soon overcame the disadvantage and the half ended 7 to 5 in her favor. The Union men tired somewhat in the second half and the men from Hanover succeeded in adding 11 points to Union's 3. Both fives displayed brilliant team-work in this half. At one time Union had six successive throws and at another, Dartmouth had seven. Union's only field basket in this half was made on a throw from the side-line by Anderson. The summary:

DARTMOUTH M. C., 18; UNION, 8.

Referee—Mr. Button of Washington Continentals. Umpire—Mr. Yates of Washington Continentals.

Field baskets—Cronkhite, 1; Anderson, 2; Karsley, 3; Whelan, 1; Scott, 1; Miller, 2; Tarbell, 1.

Baskets on fouls—Cronkhite, 1; Thebo, 1; Tarbell, 1; Whelan, 1. Fouls—Union, 4; Dartmouth, 6.

Score—Dartmouth Medical College, 18; Union, 8.

THE 1902 GARNET.

Annual Publication to Appear Sometime in April.

The Garnet Board is rapidly getting its material into shape for publication. The book this year will contain several novel features, among them individual cuts of the members of 1902, a class cut of 1901, and an unusual number of original drawings and photographs about college.

But few literary articles have been handed in by the students thus far. It is very desirable that every man who intends entering the competition should give the matter his earliest attention.

COLLEGE CALENDAR.

MONDAY, MARCH 18.
5:00 P. M.—Glee club rehearsal.
7:00 P. M.—Instrumental clubs rehearsal.
Mandolin club rehearsal.

TUESDAY, MARCH 19.
4:45 P. M.—Glee club rehearsal.

WEDNESDAY, MARCH 20.
4:45 P. M.—Glee club rehearsal.

THURSDAY, MARCH 21.
4:45 P. M.—Glee club rehearsal. Basket ball, V. A. C. at Schuylerville.

FRIDAY, MARCH 22.
8:00 P. M.—Concert by the Musical Association at Red Men's hall, Scotia.

Track and baseball practice every afternoon.
Students who consistently bolt the college meeting Monday mornings have no reason to claim that they are showing the slightest college spirit. Every one of them would strenuously object if the faculty should take away this important student privilege. The place for every man on Monday morning between quarter past eight and nine o’clock is in his seat in the chapel.

$325 out of the $600 deeded for paying the expenses of the baseball nine during the coming season has been subscribed. $275 more is needed. Every student who has not subscribed should do so at once. College spirit demands it. Money is needed to pay the initial expenses of the team. There is no time like the present for paying up. Support the nine!

There are strong reasons why all track men in college should immediately respond to the call for candidates which Captain Weed has made.

Exclusive of the annual State League meet, athletic games are to be held with both New York University and Amherst.

Preliminary training in the gymnasium and cross country work should be entered into at once. Union’s failure in track athletics during the past few years has been largely due to lack of enthusiasm at this season.

MUSICAL ASSOCIATION PLANS.

A concert will be given by the musical clubs in Red Men’s hall, Scotia, next Friday evening, March 22.

Manager Brown is perfecting plans for the annual spring trip down the Hudson, which this year will include April 24-27. The first stop will be at Catskill on Wednesday evening, April 24. The stops for Thursday and Friday evenings have not been decided upon. New York will be reached Saturday and the annual concert will be given that evening. New York alumni are promised a better exhibition than ever before.
A STATE ELECTRICAL COURSE.

"Hudson Republican" Suggests That the Number of Scholarships be Increased.

We point with pride to our public school system and we have a right to. Massachusetts, long the example in State education, is being rapidly overhauled. A few years more of the same ratio of gain and the Empire State will be far in the front.

A bill recently introduced in the State Senate is another step, this time in higher education. It provides for the establishment of an Electrical engineering laboratory at Union College, by the appropriation of $150,000 for the purchase of land and erection of buildings, and for an annual expenditure of $25,000 for maintenance. In return the state is to own the land and be given twenty-four annual scholarships, good for a four year course.

Union College is chosen because the General Electric company has its huge plant in Schenectady. No better advantages could be offered anywhere than these magnificent works will give. There seems to be no serious objection to the scheme, except on the old ground of paternalism which is always raised against any bill giving governmental—general or specific—support. If the bill does pass a magnificent course will be opened, but why not amend the scholarship provision and make it one for each county? If this is done, we believe it will sooner become a law. Such an amendment would enlist each Assemblyman more earnestly in its support. Each county will have to pay a pro rata share of the expense and by the change we have suggested, each county would then have more than a general interest in the work. Columbia today has four of her sons at Cornell on State scholarships. By a competitive examination system, such as has been adopted in the distribution of the Cornell scholarships, the best man would go.

The Cornell baseball team has nearly thirty games scheduled for the coming season.

THE ELECTRICAL SCHOOL BILL.

"Watertown Times" Thinks It a Very Practical Measure.

What seems to be a very practical measure in the educational line is before the State Senate, involving a proposition to appropriate $150,000 to erect and equip a laboratory of electrical engineering and pay $25,000 a year of state money toward its maintenance, in connection with Union college at Schenectady. There, if anywhere, is the place for such an institution, assuming that the state's educational policy is to continue in favor of technical education. Schenectady is the home of the General Electric company, where an army of skilled mechanics and electricians are working out the ideas conceived in the wonderful brain of Thomas Edison. Union college is one of the old substantial educational institutions of the state, capable of bearing the responsibility of the charge of such an institution and with a faculty and management which may be trusted to make wise use of the advantages offered. As it is no longer a denominational institution, under the control of a church, the proposition seems to involve no embarrassment in that respect. It would put Union college in the same relation to the state as Cornell University. Union college, in return for the state appropriation, is to give twenty-five four-year free scholarships in electrical engineering and the state is to hold the title to the land.

QUARTET CONCERTS.

The college quartet gave a concert at Granville last week Wednesday evening. H. J. McClure assisted with banjo solos and monologue sketches. Tuesday evening of this week they sang at the banquet of the College of Pharmacy at the Ten Eyck. Tonight, with the assistance of H. J. McClure, they give a concert at the Memorial Baptist church in Albany. The quartet now consists of G. LeRoy Shelley, 1901; H. A. Barrett, 1901; A. H. Hinman, 1902; and C. E. Heath, 1904.
BASEBALL GAMES.

Changes in the Schedule Announced by Manager Kline.

In addition to the baseball games announced in the issue for Feb. 14, two matches in the State League series have been arranged with Hobart. That college will play on Union's campus on Friday, May 3, while the Garnet will go to Geneva for a game on Friday, May 24. The West Point game has been changed from April 22, to Saturday, April 20.

Captain Parker is keeping the men hard at work in the "gyrn" and pitching cage. Several men from the professional departments have been over from Albany a number of afternoons.

PAN-AMERICAN GAMES.

At the annual meeting of the Intercollegiate Association in New York in February, a resolution was adopted indorsing the Pan-American Intercollegiate games to be held in Buffalo in the spring. These games are to be under the direction of the Committee on Sports, whose members all are college men, and will take place in the Stadium on the Exposition grounds on Friday, May 31st and Saturday, June 1st. Following, as it does by a week, the regular Intercollegiate Meet in New York and several of the Western track meets, the Pan-American Meet is sure to draw competitors from all sections of the country. Such an opportunity for a thorough national meet of college athletes is rarely offered and it is to be hoped and expected that college men generally will show the interest and give the support that the occasion demands. The meet will be conducted under the rules of the Intercollegiate Association and all of the judges and officials will be college men of well known reputation and experience. Handsome medals will be given to the three first men in each event and to the two colleges scoring the highest number of points trophies will be awarded.

TRACK ATHLETIC MEET.

One With New York University Scheduled to Take Place in May.

Manager Clements of the track team has arranged a meet with New York University which is to take place in either Albany or Schenectady during the month of May, probably on the 18th. In return, Union is to go to New York in the spring of 1902. New York and Union are very evenly matched, so that the meet should prove very interesting.

Besides the annual State League meet at Hamilton, negotiations are being made for one with Amherst, to take place early in May.

SYRACUSE BASEBALL.

April 10—Mount St. Mary's, at Emmitsburg, Md.
April 11—Gettysburg, at Gettysburg, Pa.
April 12—Bucknell, at Lewisburg, Pa.
April 17—Fordham, at Fordham, N. Y.
April 18—Seaton Hall College, at South Orange, N. J.
April 19—New York University, at New York.
April 20—Manhattan, at New York.
April 26—Columbia, at Syracuse.
May 2—Vermont, at Syracuse.
May 7—Union, at Schenectady.
May 8—Holy Cross, at Worcester.
May 9—Tufts, at Boston.
May 11—Exeter, at Exeter, N. H.
May 13—Dartmouth, at Hanover.
May 16—Manhattan, at Syracuse.
May 18—Tufts, at Syracuse.
May 20—Michigan, at Syracuse.
May 22—Fordham at Syracuse.
May 24—Union, at Syracuse.
June 1—New York University, at Syracuse.

Dr. W. N. Clarke of Colgate, will deliver the commencement oration at Oberlin this year.
On April 8, Dr. Towne is to lecture before the local Y. M. C. A.

Prof. T. W. Wright has again taken charge of his classes in Mathematics.

1901 will be photographed at Talbot's Friday at two o'clock. The picture will be reproduced in the "Garnet."

Minkin, '01 and Putnam, '04, attended a reception given by the Albany Normal School in Albany, Friday evening, March 8.

E. H. Rider, '03, has been home for the last few weeks owing to the illness of both parents. It is expected he will return to college next term. The college extends sympathy to him in the loss of his mother.

Profs. Opdyke and S. B. Howe, '62, are members of the committee appointed by the board of trustees of the free library, which was appointed to increase the membership of the association.

Prof. Opdyke and Manager Kline attended the meeting of the N. Y. S. I. C. A. A. at Utica on Saturday. The most important business transacted was the award of the football pennant to Union.

John W. H. Pollard was in town over Saturday and Sunday visiting old friends and incidentally, managing the Dartmouth Medical basketball five. Prof. Pollard has been working hard ever since he left Union. Last summer was spent at the Dartmouth Medical summer school, and last fall in the regular course at that institution. He left Hanover in January to enter the medical department of the University of Vermont, from which he says he will receive the degree of Doctor of Medicine in June. Success to him.

PHI DELTA THETA BANQUET.

The newly incorporated Phi Delta Theta club of Schenectady will enjoy a banquet at the Hotel Edison, Friday evening.
that American authors have succeeded in producing analytic geometries which are at once scholarly, suitable to American instruction, and in harmony with modern educational thought. This book deserves mention as one of the usable books of this class. With the exception of a few blemishes, the work will be found generally acceptable for its modern spirit and thorough treatment.

'96.—R. S. Greenman, who is at the head of the Cement Testing Department in the State Engineers' office in Albany, spent Saturday and Sunday on the hill.

The "Daily Gazette" prints the following: "Over half a century ago Amos K. Hadley, who died at Mount Vernon, March 5, was a student in Union college. He was born in Waterford, Caledonia county, Vermont, in 1812. He went to school there and also took a preparatory course at Willimansett. He subsequently came to New York state and entered Hamilton college. After two years there he secured an honorable dismissal and joined the junior class of Union college at Schenectady. He went to Troy in 1835 and commenced the practice of law. He was a student in the office of Cushman & Seymour and later a member of the firm of Britton & Hadley. In 1847 he was elected to the Legislature to represent Rensselaer county, and the next year, under a redistricting, was chosen to represent the city of Troy. In 1848 and 1849 he was speaker of the Assembly. In 1853 he removed to New York and practised law until disabilities incidental to advanced age caused his retirement. While in Troy he lived on First street, where the office of Kennedy & Wilbur now is. At one time he was president of the Young Men's association, and was also one of the three original trustees of the Benjamin Marshall estate. He took the first degree in King Solomon's Primitive lodge, F. and A. M., Nov. 8, 1847, and was knighted a member of Apollo commandery Dec. 20, 1852. He withdrew from the lodge April 10, 1856, and subsequently from the commandery. He married Miss Hart of Troy and is survived by one daughter, Miss Anna Hadley."

"Mr. Hadley was a contemporary of Russell Sage and one of the few survivors of the Whig leaders in this state. It is believed that Mr. Sage is now the only living member of that famous group of which Mr. Hadley, in his later years, used to talk about with great gusto. He remarked on one occasion that Russell Sage in those days was as great a leader as any of those of the present time. Mr. Hadley was at Saratoga in 1856 at the inception of the present Republican party. He styled it a strange gathering of the extremists of the Whig party. Ever since he had voted for the electors of the national Republican ticket."

Mr. Hadley's name does not appear in the "Centennial Catalogue." Doubtless an omission has been made.
$25,000 Our Grand $25,000
Ornithological Contest.

Something entirely new and interesting. Read what you are to do. You may get 1,000 dols. Our contest is to see who can make the largest list of names (or kinds) of birds from the following list of letters:

WOODCOCK OULIAPRTARDIG

We will recognize a bird anything belonging to the feathered tribe, whether it be a Hen, Crow, Singer or any other kind. You can use any letter as many times to make a name as it appears in the list of letters above; for instance, Woodcock, Closer, Snow Bird, etc. To any person who can make a list of 200 or more different names of birds, we will give absolutely FREE a beautiful prize, values 1,000 dols. or less.

BIG PRIZES AWARDED DAILY.

When you have made out your list fill out the line on the bottom of this advt. and send us with a Stamped Addressed Envelope, stamp of your country will do; then if you are awarded a prize you can. If you desire, get the prize by becoming a subscriber to The Woman's World. We shall award a prize to every person who sends the name of 25 Birds, and our prizes will be as follows: For the best list, received each day, a Gold Watch; for the second best solution each day, a beautiful diamond and Ruby Ring; for the seven next best solutions each day, a Konrath Oriental Diamond and Ruby Ring; for the next seven best solutions, a Gold Piece; and for all other correct solutions, Prizes of Good Value. These prizes will be forwarded daily; you will not have to wait a long time in uncertainly before you know the results. There is no element of lottery in our plan. It makes no difference whether we get your solution late or early in the day. All you need is to mail this advt. to us, and on the day it reaches us, if your list is the best, you shall have the gold watch, or, if second, the beautiful watch, and so on. We guarantee that we will award you a prize. There is absolutely no opportunity for deception on our part—we cannot afford it. We have got to give 1,000,000 well satisfied subscribers, and for that reason we don't want you to send any money until you know exactly what prize you have gained by answering the puzzles. As soon after 4 p.m. each day as possible, the examiners will judge the lists to the best of their ability, and will designate the prizes. We will write to you at once notifying you what prize has been awarded to you; then if you are satisfied, you can send your subscription to The Woman's World, and your prize will go by return of mail carriage paid. To a person of narrow ideas it seems impossible that we should be able to make such a gigantic offer, but we have the money, brains and reputation. We know exactly what we are doing, and if we can legitimately gain a million subscribers by this grand idea we know that this million of well pleased subscribers can be induced to recommend The Woman's World to all friends, thereby building up our circulation still further. We are willing to spend 33,000 dols. in this contest in building up a big subscription list, and when this money is spent we reserve the right to pull all a notification that the contest has been discontinued. Don't delay until it is too late. The contest will continue until July 1st, 1901.

We give a Bonus Prize of 250 dols., independent of all others, to the person who sends the list gotten up in the best and handiest manner. Our committee will decide and award prizes daily, but the special 50 dols. prizes will be awarded in September, 1901. Any bird's name found in the dictionaries accepted.

WHO WE ARE.

The "Woman's World" is a thoroughly reliable concern. We are known to do exactly as we advertise. As to our reliability we refer to any Advertising Agent or business man of London or New York.
