

Brunnell, Seth.

4/18/1835.

"... is the butt of college... with his name is associated ignorance and folly, ...his fort lies in Stenography, or Tachagraphy as he calls the art. This he learned of an ignorant wonder-worker who peddled out his knowledge at a surprising low rate and taught men to write shorthand in almost no time...proficient as a preacher 'among the old Dutchmen at Princetown...he builds up his forum by stealing Dr. Dwight's sermons... he has made a convert of a rich Dutchman's daughter and only waits his graduation to have his marriage consummated". Pearson Diaries V.2,p.98.
