languages are substituted for the ancient, Sophomore year a Mathematics more

classical Course, and science. This course is intended to give the

branches of the profession, a knowledge of both French and

ing, address

this differs from course 6 in substituting special work in Electrical Engineering for some of the General Engineering studies. This differs from course 4 in substituting special work in Electricity and its applications, in place of some of the General Engineering studies. This course is offered in co-operation with the Edison General Electric Company.

7. Graduate Course in Engineering Leading to the Degree of B. E.—A course of one year offered to graduates of courses 4, 5 or 6. There are also special courses in Analytical Chemistry, Metallurgy and Natural History. For catalogues or for special information, address

Benjamin H. Ripton, Dean of the College, Schenectady, N. Y.

DEPARTMENT OF MEDICINE.

Albany Medical College.—Term commences first Tuesday in September. Four years strictly graded course. Distribution by lectures, recitations, laboratory work, clinical and practical demonstrations and operations. Clinical advantages excellent.

Expenses.—Matriculation fee, $5; annual lecture course, $100; perpetual ticket, $300; graduation fee, $20; dissecting fee, $30; library course, each $10. For circular address.

Willis G. Tucker, M. D., Registrar, Albany, N. Y.

DEPARTMENT OF LAW.

Albany Law School.—This department of the university is located at Albany, near the State Capitol. It occupies a building wholly devoted to its use. The course leading to the degree of LL. B. is two years in each year is divided into two semesters.

Expenses.—Matriculation fee, $10; tuition fee, $100. For catalogues or other information, address

J. Newson Fiero, Dean. Albany Law School, Albany, N. Y.

ALBANY COLLEGE OF PHARMACY.

Exercises held in Albany Medical College. Twenty-first annual session opens Monday, Oct. 1, 1901. For catalogue and information address

The death of this much-esteemed and popular professor occurred on June 18 at his home on College-hill and was a shock to everyone. It came as a very painful piece of news to the students who had just left for their vacations and his loss will be especially felt by them for he was always their friend. The memory of his life and character will ever live and be a blessing to all those who knew him. His death was due to what is technically known as angina pectoris, an affection of the heart.

Maurice Perkins was born in New London, Conn., in 1835. He prepared for Yale college at East Hampton, Mass., but was prevented from pursuing his course by failing health, and by his physician was ordered to take a lengthy sea voyage. He complied by taking a voyage around the world. After his return he attended school in New York city and finally spent three years at the College of Physicians and Surgeons. In 1859 he went to Germany and attended the universities of Brunswick, Gottingen, Heidelberg and Tubingen. On his return he was appointed assistant professor at the College of Physicians and Surgeons of New York. He went from there to Harvard college and became assistant to Dr. Gibbs of the Lawrence Scientific school. In 1865 he was elected professor of chemistry at Union college, and subsequently also professor of chemistry in the Albany Medical college. In 1876 that chair was divided and he retained that of chemical philosophy and organic chemistry. He received from Harvard the degree of A. M. in 1865.

In the course of his career at Union, honors and responsibilities had been heaped upon him. In 1880 he was made a member of the city Board of Health and soon after was made also a member of the State Board of Health. Then he successively became fellow of the American Association for the Advancement of Science; of the Albany Institute; the Connecticut Academy; the American Academy; the Natural History Society of New York, and the Society of Chemical Industry, of England. He was also the author of a book entitled, "A Course in Analytical Chemistry" and was a frequent contributor to medical journals. He was a member of both $\Phi\beta\kappa$ and $\Sigma\Xi$.

His activity was by no means confined to his professional duties in the college. He was known all over this section of the state as a toxicological expert and authority, and was frequently called on to analyze and test in cases of suspected poisoning. He was connected with over forty cases of legal chemistry.

He also had the honor of representing the New York State Board of Health in the international convention of the respective boards of this continent in the City of Mexico.

Prof. Perkins was always a great favorite on the hill. His genial, unselfish disposition won for him friends wherever he went, and more than three decades of Union "boys" will learn with deep regret of his demise. Though past the three-score mark, he was just as much of a boy as ever and always took an active interest in the students and their undertakings. Prof. Perkins had the faculty of seeing the comic side of things and he never missed an opportunity for a laugh. Many are the stories or happenings in the "lab," and the good-hearted professor was usually the central personage. Prof. Perkins was a man who took a keen delight in doing favors and no one was ever more ready to forgive an injury.

In point of service Prof. Perkins was one of the two oldest professors on the hill, he having come to Union in 1865, the same year that Dr. Wells located here. He has thus been a familiar figure on the campus and at commencements for nearly forty years, and his presence will be sadly missed.
There was a large attendance of friends, including the members of the faculty of Union university at the funeral services which were held in the college chapel. There was a brief funeral service at the house, at which Rev. Dr. George Alexander, Union, '66, of New York and Rev. A. Russell Stevenson officiated. The remains were conveyed to the college plot in Vale cemetery, at the conclusion of the services, and interred. The pall bearers were the Messrs. E. J. Wheeler, ’85, E. P. McKeefe, ’98, E. C. Walker, J. N. VanDerveer, ’99, Howard Wright, ’95, and Prof. Howard Opdyke. The honorary bearers were Hon. J. S. Landon, Dr. S. B. Ward, ’82, of Albany, Dr. W. G. Tucker, ’82, of Albany, Dr. W. L. Pierson, ’68, Dr. B. H. Ripton, ’80, H. C. Lewis, J. E. Sague, and J. K. Paige, ’65. The funeral sermon in the chapel was delivered by Rev. Dr. A. V. V. Raymond.

Dr. Perkins is survived by Mrs. Perkins, two daughters, Miss Alice of New York, and Mrs. Everett Hale, jr., of this city, and one son, Dr. Roger Perkins of Cleveland, Ohio.

HENRY WHITEHORNE, LL. D.

Henry Whitehorne, LL. D., professor of Greek in Union college, died at his home on the College hill at about three o’clock on Sunday afternoon, September 29.

Doctor Whitehorne was born on the Island of Jamaica, January 6, 1814. Doctor Whitehorne’s father who owned an extensive indigo plantation in the Maroon mountains, died this same year. His widow, after having settled the affairs of her estate, removed to England to educate her children. Her son Henry was placed in the famous public school at Shrewsbury and spent his early school days there. Afterward he was prepared for Oxford under the instruction of the Rev. Mr. Bingham, a clergyman of the Church of England.

Dr. Whitehorne entered Wadham college in 1833 and was graduated in 1837. He was in Oxford therefore during the famous Oxford movement. Benjamin Parsons Symons, leader of the Evangelical party in the university, was at that time Warden of Wadham college, and Wadham was the centre and principal meeting place of the broad church faction. These then were years of great intellectual activity at Wadham, always a scholarly college, distinguished earlier as the birthplace of The Royal Society and later as the alma mater of Frederic Harrison, Dr. Congreve and other noted English positivists. Dr. Whitehorne made the most of the scholarly opportunities of his college. He was furthermore prominent in athletics, for he was a member of the ‘varsity crew.

Shortly after leaving Oxford, Dr. Whitehorne came to Canada, and from Canada in 1841 to New York city. In 1845 and 1846 he taught Greek and Latin at St. Thomas Hall, a church school situated at Holly Springs in the Protestant Episcopal diocese of Mississippi and from 1847 to 1852 he was principal of the school. From 1852 until 1857 he conducted a private school in Memphis, Tennessee, and in 1857, he was called to the professorship of Greek in the University of Mississippi. He continued as professor of Greek and librarian of the university until 1861.

At the outbreak of the Civil War not being in sympathy with the Southern cause, Dr. Whitehorne was compelled to leave the South. Indeed, his leaving was so abrupt that he was forced to abandon his house and all his household effects including a large and valuable classical library. At Columbus, Ohio, he was refused passport through the Confederate lines by Gen. Leonidas Polk, his bishop in Mississippi, and he therefore decided to go to Richmond to present his petition in person to his friend Jefferson Davis, the president of the Confederacy. President Davis granted him a passport, and he came to New York by way of Washington. Doctor Whitehorne had been well nigh impoverished by his sudden flight from the South and his subsequent journey North under circumstances of peculiar difficulty. For two years he was obliged to support himself and his family by turning his hand to whatever he might find to do. Among other thing he was war correspondent for a Russian newspaper.
In 1863 Dr. Whitehorne was made principal by the Union Classical Institute of Schenectady, at that time under the management of the Trustees of Union College. In 1868 he was made professor of Greek in Union College, succeeding Dr. Taylor Lewis, and continued in that position up to the time of his death, teaching until his last illness with unabated force and ability.

Dr. Whitehorne was dean of the college from 1886 until 1894, and during the first two years of his deanship many of the duties of president of the college devolved upon him, there being an interim in the presidential office. The degree of Doctor of Laws was conferred on Doctor Whitehorne at the commencement of 1887. Alumni who were present on the occasion may reasonably doubt if ever any degree was conferred amid such hearty and deafening applause. From 1891 until 1896 Dr. Whitehorne was president of the New York Alpha of Phi Beta Kappa.

Dr. Whitehorne was married in 1845 to Matilda Watts Cooper, daughter of George Duncan and Elizabeth Bayard Cooper of New York City. He is survived by three sons and two daughters, Dr. H. B. Whitehorne of Verona, N. J., Dr. E. E. Whitehorne of Chicago, Mr. Bayard Whitehorne of Montclair, N. J., and Miss Kate and Miss Edith Whitehorne of Schenectady. Mrs. Whitehorne died in March, 1888.

THE CONCORDIENSIS.

ALBANY LAW SCHOOL OPENS.

General Parker in His Address Tells of McKinley as a Student There.

The Albany Law School entered upon its fifty-first year on September 25 under auspicious circumstances, the number of students being more than double that of other years. The majority of the members of the faculty, the board of trustees and the members of the classes were all present and the usual addresses were made. General Amasa J. Parker college, ’63, as president of the Board of Trustees, made the address. In part he said:

"The semi-centennial year of this school, which closed on the 29th of May last, was an eminently successful one in many ways, notably the very large classes in attendance, making a total exceeding that of any one of the 30 years preceding, and the hearty reunion of hundreds of our alumni of the 50 years' life of the school, coming from all portions of our country, among them two men of prominence in the law, who were members of the first class of 1851.

"This reunion was productive of much good and promised well for the future of the school.

"The reorganization of the Albany Law School Alumni Association at that time, last May, was most gratifying and the large work of preparing a comprehensive catalogue of all graduates of the school to date, is now in rapid progress toward completion under the immediate supervision of A. Page Smith, secretary of the alumni, 51 State street, Albany, N. Y., and to whom great credit should be given for this work.

"But all has not been sunshine for us!

"Early in August, with but a few hours' warning, was called to his eternal rest, Prof. James W. Eaton, a trustee of the faculty. He had been since the reorganization of the trustees and faculty, six years since, one of the most valuable and active factors in our work here. He was by nature a teacher and was rated as the equal of any law lecturer in this country or in England. He was a man of liberal education and his reading covered many and various subjects of great interest and value. He was an exceptionally interesting and able man and in his short life accomplished a large and lasting work. The subjects upon which he lectured here were among the most important in the school and the best provision possible will be made in the near future for the lectures formerly delivered by Prof. Eaton to be delivered by others as will be announced by the dean at the proper time.

"The other sad subject I have to refer to today is the dastardly assassination of our most distinguished alumnus, President William McKinley.

"It was my privilege to have known him personally from the time he came to Albany in the late fall or early winter of 1866.
I had graduated in the class of 1864 and began the practice of my profession here, in this city, as the partner of my father, one of the founders and professors in the Albany Law School, on the first of May, 1865.

The class that Mr. McKinley belonged to was known as 'the war class' and it is claimed that every grade in the army from major-general down to private was represented in that exceptionally large class.

At that time and for years previous and subsequent thereto, the Law School occupied the building which is now the south wing of the Albany Medical College, and the entrance to the same was on Jay street.

Mr. McKinley, according to the records, boarded at a house just above the Law School, on the south side of the street, known as number 40 Jay street.

From the very first he attracted much attention in the class on the part of the three professors. He was impressive, and yet very quiet and modest, and inspired great respect and confidence in whatever he did or undertook. He studied with extraordinary care and diligence and was particularly noticed on the rigid examinations held in those days by the three professors, as well as in the Moot Courts.

I kept track of him principally through my father down to the time of his death, in May, 1890, and he studied Mr. McKinley's career with great interest, having predicted a most distinguished future for him shortly after he entered our school.

In after years I saw Mr. McKinley from time to time and had his personal promise, since he became President, of delivering the annual address to the graduating class of this school, and which, had he lived, would have doubt have been fulfilled in May, 1902, or 1903.

We have a strong and peculiar interest in the life and record of our great alumnus, William McKinley, who passed so important a year in his life in this city and in our honored institution.

He conspicuously typified the American character and was representative of all that is best in life, mentally, morally and physically.

In character he was exact and progressive, diligent in all work which fell to his lot, liberal and tolerant,—in short, a Christian gentleman.

If only he could have addressed us and expressed his views and appreciation of that year here in the Albany Law School, how thankful we all would have been.

But God has ordained otherwise and, bowing to the mandate, let us fully appreciate and emulate those high qualities we claim such a vested interest in."

At the conclusion of General Parker's address Andrew V. V. Raymond, president of Union University, delivered a very interesting address. He referred feelingly to the death of James W. Eaton and President McKinley. He told the students that McKinley's life was one that should be copied by every true Christian and patriotic citizen.

The school was draped in mourning in respect of the memory of Mr. McKinley and Mr. Eaton. Their portraits on the platform were draped. Mr. Eaton's chair also was draped.

Among graduates from the college who are students in the Law School are: Bender, Read, Fenton, Paige, Pike, Hubbard, Boorn and Rogers, all of 1900 and Merriman and Minkin of 1901.

MEDICAL OPENING.

The Albany Medical College opened for the season of 1901 and 1902 on Sept. 25 at noon. The members of the freshman class and the students who have attended the college for one, two or three years assembled in the amphitheater, where the introductory lecture was given by Dr. Howard Van Rensselaer, professor of materia medica and therapeutics. Dr. Van Rensselaer's lecture was especially for the benefit of the young men who are about to take up the study of surgery and medicine. He endeavored to impress upon the students the difficulty that will be experienced during their college life and gave some good advice as to the best course to pursue in order to be successful to a high degree on the day of their graduation.
He was followed by President Raymond who made an address. The entering class this year is considerably larger than last. The class numbers between forty and fifty members. The freshman class of 1901 will not graduate until 1905. The four-year course at the college has now been completely graded and members of all classes in the future will have to remain at the college four years before receiving their diploma.

The faculty of the Medical College has made a number of changes this year that will be beneficial to the members of all classes. The freshman class will be given clinical work, together with duty at the hospitals, thereby gaining practical knowledge from the beginning. The students of the college are also given another advantage this year by being allowed to take the state examination in certain subjects after they have been studying at least a year. The privilege was afforded by a law recently passed. The law gives the regents power to admit conditionally to the licensing examinations in anatomy, physiology and hygiene and chemistry, applicants certified as having studied medicine not less than two full years of at least nine months each, including two satisfactory courses of at least six months each, in two different calendar years, in a medical school registered as maintaining at the time a satisfactory standard, provided that such applicants are more than twenty-one years of age, of good moral character, having the requisite preliminary education and pay the fee of $25; the final examinations in surgeons, obstetrics, pathology and diagnosis, therapeutics, including materia medica, to be met after having finished the full period of study and having received the medical degree. As a result of a conference held May 13, 1901, by the representatives of the medical interests of the state, the regents were requested to put this plan in operation, beginning with the September, 1901, medical licensing examination and they did.

There have been some very important changes in the members of the faculty this year, caused by death and resignations. Dr. Willis G. Tucker, college, '82, has been appointed successor to the late Dr. Maurice Perkins, who died last June, as professor of chemical philosophy and organic chemistry. Dr. Howard Van Rensselaer will succeed Dr. John V. Hennessy as professor of materia medica. Dr. Hennessy has resigned. The following appointments have been made as clinical professors:

Leo Haendel Neuman, M. D., theory and practice of medicine and gastro-enteric diseases.
Jesse Montgomery Mosher, M. D., insanity, neurology and electro-therapeutics.

Lecturers:
William Olin Stillman, M. D., history of medicine.
Harry Judson Lipes, M. D., obstetrics.
Charles Harper Richardson, M. D., minor surgery.
Arthur Wells Elting, M. D., surgical pathology.
George Emory Lochner, M. D., gynecology.
Arthur Turner Laird, M. D., clinical microscopy.

St. Peter's hospital, (neurology), Prof. Hun.
Albany hospital (medical), Prof. Ward.

The following is a list of men from the college who are at the medical:

1902—Gutmann, '98; Ham, '99; Hoyt, '99; Mark, '99; Merriman, '93; Mereness, '01.
1903—Merchant, '97; Vanderveer, '99.
1904—Fisk, '99; Keens, '02; Clark, '03.
1905—Cowell, '02; Hays, '02.

THE CANE RUSH.

This important event to the sophomores and freshmen occurred this year on the afternoon of Wednesday, September 25.

It consisted in the throwing of the usual amount of salt and decayed vegetables and the pitching of the cane aloft followed by a wild rush. The freshmen put up a lively scrap this year and the contest resulted in a tie. A second rush was made which gave the cane to the sophomores by a score of 11 to 6.

Concordiensis, - $2.00 per Year, in Advance
Single Copies, - - - - - 10 Cents

Address all communications to The Concordiensis, Silliman Hall, Schenectady, N. Y.

Entered at the Post-office at Schenectady, N. Y., as second-class matter.

Chas. Burrows, Printer, 414 State Street, Schenectady, N. Y.

Our advertisers will please notice their printed matter and send any corrections to the manager at once. Unless such action is taken, it must be taken for granted that the work is entirely satisfactory.

The editors wish to state that owing to the quantity of material for this week's number they propose to make the next issue a special Memorial number to the many prominent men who have recently passed away and who were so intimately connected with Union.

The students will please note that the paper is sent to them without soliciting their subscriptions. It is expected that every student will show his loyalty and appreciation of the labor expended on the paper by becoming a subscriber. The management purposes to see all the students personally within a short time and in the meantime it makes the request that they do not stop the paper.

It is customary in the first number of this paper to offer some word of welcome to the returned students and especially to the members of the incoming class. Owing to the unavoidable lateness at which the paper appears no word of welcome is needed. The Concordiensis only wishes that the members of 1905 may learn to become loyal and true sons of Old Union, and to uphold in every way the interests of the college of which they have now become a part.

The alumni will please note the change in the management of the Concordiensis. If any may have complaints against the former management, it is suggested that they be sent to the former management. The present manager purposes to place in the hands of the alumni, weekly, a paper which will keep them informed on all matters of interest connected with the college and asks, in return, some material recognition in the shape of subscriptions. If they have been subscribers, it is asked that they do not get out of touch with the life and spirit of their Alma Mater as she is to-day by stopping the paper.

Union has been peculiarly unfortunate during the past three months in having lost two of the oldest and most highly esteemed men on its faculty, its treasurer, and some of its famous alumni. First came the unexpected death of a man known and beloved by all Union men, Dr. Perkins; then the death of the well known journalist and art-critic, William J. Stillman, '48; then the death of Bishop Littlejohn of Long Island, of the class of '45. Soon after occurred the death of that loyal son of Union and veteran-general, Daniel Butterfield. A few days before college opened came the death of Treasurer Gilbert K. Harroun, whose removal was indeed a serious loss to the college. Next
occurred a catastrophe which stirred the whole country, if not the world, and which resulted in the death of William McKinley. Mr. McKinley was a graduate of the Law department and had an LL. D. conferred upon him last June at the fiftieth anniversary exercises of the school.

And lastly, that wound, freshest in the minds and hearts of all—the death of Dr. Henry Whitehouse, on September 27.

FACULTY CHANGES.

There have been several changes in the faculty which took effect at the beginning of the college year. The professorship in chemistry, which was made vacant by the death of Dr. Perkins last June, has been filled by the appointment of Dr. Richard S. Curtis. Dr. Curtis has enjoyed extensive opportunities both for study and practical experience as a teacher of chemistry and comes to Union with an established reputation. He was graduated from Yale in the class of '88. From 1888 to 1890 he was employed as chemist at the Connecticut Agricultural Station; from 1890 to 1892 he studied at the Universities of Munich and Wuerzburg, from which latter institution he took the degree of Ph. D. After taking his degree Dr. Curtis studied for a year at the Sorbonne, Paris. From 1893 to 1897 he was employed as instructor at the University of Chicago and from 1897 to the present time he has held the professorship in chemistry at Hobart College.

The resignation of Albert H. Pepper, A. M., assistant professor of modern languages took
place in June. His position has been filled by the appointment of Frederick H. Wilkens, A. B., Johns Hopkins, '84, and Ph. D., University of Leipsic, '91. After taking his degree at Leipsic Dr. Wilkens was for several years an honorary fellow at Johns Hopkins. Then he spent about a year in Germany pursuing research work. He came to Union from Cornell where, as an honorary fellow he had some of the advanced work in German.

Mr. Frederick Edwards, C. E., has been appointed instructor in surveying, drawing and mathematics, vice Lindsay Duncan resigned. Mr. Edwards graduated from the Rensselaer Polytechnic Institute with the class of '95 and had been up to the time of his appointment at Union, engaged as engineer in the Brooklyn Navy yard. He is a junior member of the American Society of Engineers.

Assistant Professor Howard Opdyke is on a two years' leave of absence in Europe. His work in the department of physics during that time will be taken by Mr. E. B. Wheeler, B. S., a graduate of the University of Missouri in '99. Mr. Wheeler comes to Union from the State Normal School at Cape Girardeau, Missouri, where he was professor of physics.

**NORTHFIELD.**

Last summer witnessed the first efforts of Mr. Moody's successor, Rev. G. Campbell Morgan of England to carry on the work began by Mr. Moody at the famous Northfield conference. Mr. Morgan gave several addresses at the conference as did Robert E. Speer and John R. Mott. Mr. Morgan is a different sort of a man from Mr. Moody, more educated, but undoubtedly he is fitted to be at the head of these world-famed conferences.

This year's Student Conference was one of the most successful ever held, 699 delegates being present, 592 of whom came from the United States and Canada. There were 149 institutions of learning represented and delegates from 29 different countries, among whom was the Crown Prince of Korea. Japan had her delegate and a bronzed man in turban and linen duster spoke for caste-cursed India; and even once-powerful Portugal had a delegate who pleaded most earnestly for help in the work.

The greatest occasion at Northfield is the Fourth of July celebration. It is an event which will always remain in the memory of those who have been fortunate enough to be present. The exercises begin in the afternoon and extend almost without interruption (save supper) until midnight. The first features on the program are the field and track events. While no world's records are broken, still there is throughout a spirit of intense rivalry. This year, Yale as usual, won the greatest number of points. After supper the delegations, separately and by states, make their way to the auditorium where a monster meeting is held. This building is especially fitted for increasing the volume of college yells, and if there is any need of added incentive in this line, it is furnished by the presence of delegates from so many other institutions. After the address of the evening, this year being delivered by Hon. Seth Low, president of Columbia, who spoke on "Responsibilities of the College Man to the State," each college of sufficient size is allowed, in its turn, to give the college yell and to sing one of its college songs. The evening is completed by an enormous bonfire.

Union was represented at Northfield during the past summer by six men, Hannay, South, 1902; Pearce, 1903; Beadle, Brown, Green, 1904.

**Y. M. C. A. NOTES.**

The annual President's reception to new students occurred in Silliman Hall on the evening of Sept. 20. An address of welcome was made by President Crain, followed by speeches by Manager Woolworth and Captain Mallery of the football team and Manager Yates of the Musical Association.

The first vespers service was held in Silliman Hall on Sept. 22. Opening prayer was made by Dr. A. Russell Stevenson of First Presbyterian church, after which President Raymond gave a talk. The second, on Sept. 29th, was lead by Dr. Zelie of the First Reformed church. The third service, on Oct. 6, was conducted by President Raymond.
UNION BEAT LAUREATE.

Opening of the Football Season.

Union opened its football season on Sept. 28 with a game on the campus with the strong eleven of the Laureates, which resulted in a victory for Union by the score of 6 to 5. There was a very large attendance to witness the struggle. The Laureate team outweighed Union's eleven by about twenty pounds, but the effective training of Coach "Bill" Smith, showed itself. The Laureate's touchdown was made in the first half by an end play by Phil Draper who, supported by good interference, which prevented Cronkhite and Mallery from tackling him, ran seventy-five yards for a touchdown. Draper failed to kick goal. Union's touchdown was made in the second half by repeated end plays and line bucks.

In the second half Draper kicked off and the ball went out of bounds. Draper kicked off again to Hawkes, who made twenty yards before downed by Clute. Mallery made thirty-five yards through the Laureate's left end. Union advanced the ball to Laureate's seven yard line when time was called. Score at end of second half, Union 6, Laureates 5.

The line-up:

Union. Positions. Laureates.
Thebo ............. Left End ............... Clute
Finegan ............. Left Tackle .............. Rhone
Bryan ............. Left Guard .............. Smyth
Raymond ............. Centre .............. Melanson
Collier ............. Right Guard .............. Baker
Shaw ............. Right Tackle .............. Le Mere
Hawkes ............. Right End .............. Murphy
Cronkhite ............. Quarterback ....... Kober (Capt.)
Gulnac ............. Right Halfback .............. Sleicher
Mallery (Capt.) . Left Halfback .............. Draper
Paige ............. Fullback .............. Lynd

R. P. I. DEFEATED.

Union showed its good football material to the Trojans on Oct. 5 by defeating the R. P. I. on their own grounds by the decisive score of 17 to 0, although the Garnet eleven did not have any practice during the first three days of the week. Although the R. P. I. had the ball but once in Union's territory, nevertheless the Institute eleven played a desperate defensive game.

R. P. I., though visibly outpointed, put up a worthy struggle and even called into the game in the second half their crack centre and right guard, Gridley and Stevenson respectively, who were on the sick list, to try and stem the tide, but to no avail,—the Garnet kept pounding their line and running around their ends for repeated gains. C. Smith and Pitz, the half backs made some tackles, the former being in the contest every minute. R. P. I.'s ends did not show up as well for Union's loose interference ran around them time and time again. Considerable gains were made through her line, as the line was lighter than the Union.

Mallery and Gulnac did the most ground gaining for the Garnet. Thebo played a good game at end, R. P. I. tried to buck it. Collier made some fine tackles, throwing C. Smith back twice for a yard's loss each time. Paige put up a strong game on the offensive. Twice when the ball was within a few feet of the R. P. I. goal he was given the pig-skin to buck the line for the coveted touchdown and each time he did it successfully. Cronkhite put up a good game at quarterback. Anderson and Patton played the first half and in the second half they were replaced by Cronkhite and Hawkes.

FIRST HALF.

Union won the toss up and chose to defend the north-west goal. Burgoyne kicked off to Union's 15 yard line. Paige punted to Ferguson, who was downed in his tracks by Bryan. Anderson fell on the ball when dropped by Ferguson, but was tackled before he could make
a gain. Paige plunged through the line for a five yard gain before tackled by C. Smith. Mallery, Shaw and Gulnac advanced the ball by line bucks and end plays to R. P. I.'s three yard line. Paige was then given the ball and by a plunge through the line carried the ball over the line for a touchdown, after eight minutes' play.

Burgoyne kicked off to Gulnac on Union's twenty-five yard line, who advanced the ball five yards when downed by C. Smith. Mallery went around left end for twenty yards. Gulnac circled right end for ten yards. Mallery made five and ten yards around about M. Smith. Gulnac then made two gains, one of four yards through right guard and one of six yard around the right end. Paige plunged through between the left guard and centre for five yards gain. Mallery and Gulnac by a three and four yards gain brought the ball to R. P. I.'s one yard line, when Paige was given the ball for his usual daring buck for a touchdown. Paige kicked goal.

On the line-up Burgoyne kicked to Union's thirty yard line and Worth fell on the ball. R. P. I. lost the ball on downs. It was then that Collier made his two brilliant tackles, throwing Pitz both times for a yard's loss. Mallery made a gain of four yards through left tackle when time was called. Score, Union 11; R. P. I. 0.

SECOND HALF.

In the second half Union had the south-east goal to defend. Paige kicked off to R. P. I.'s fifteen yard line. Union obtained the ball on a fumble. Mallery made two yards and Paige made a gain of three yards, when the umpire awarded the ball to the R. P. I. R. P. I. made a gain of three yards, Pitz was then thrown back for a loss of two yards by Finegan. Burgoyne then punted to Union's forty yard line. Paige got the ball but dropped it when tackled by C. Smith. Cronkhite picked up the pigskin and made a run of twenty yards when tackled by Pitz. Gulnac plunged through right tackle for three yards. Paige went through the centre for a gain of five yards. R. P. I. obtained the ball on a fumble. Young made five yards around the right end. C. Smith made an attempt to go through the centre but failed to make a gain. Pitz was thrown back by Bryan for a loss. Burgoyne then punted to Paige on Union's forty yard line. Paige advanced the ball five yards before downed. Cronkhite advanced the ball and the umpire therefore awarded the ball to R. P. I. Griswold threw Pitz back for a loss of four yards. Thebo threw C. Smith back for a loss of three yards. Burgoyne punted to Paige on Union's thirty-five yard line. Paige advanced the ball five yards when downed. Mallery and Gulnac each made three and four yards around P. Smith. Mallery plunged through right tackle for five yards when tackled by Gridley. Shaw encircled right end for five yards. Mallery went around left end for five yards and then for ten yards, bringing the ball over the line for a touchdown. Paige kicked goal.

Burgoyne kicked off to Gulnac, who advanced it ten yards before tackled. Gulnac then made a fifteen yard run around left end before downed by Burgoyne. Mallery made four yards when tackled by Ferguson. R. P. I. braced up and held Union for downs when time was called.

The summary:

Union

UNION, 35; HOBART, 0.

The Garnet Wins Its First League Game.

Union won her first league game of the season on the gridiron last Monday afternoon by defeating the Hobart eleven by the score of 35 to 0. The game was an easy victory for the Union eleven from beginning to end. The ball was in Hobart's territory during the entire game and only once did the visitors make their five yards. Hobart had the ball but four times — when Paige kicked off in the beginning of the first half, when Paige punted to Hobart's forty yard line, when Finegan after running twenty yards dropped the ball when tackled, Warner falling on the ball, and in the second half the ball was awarded the visitors, Finegan having been off-side. The first touchdown was made after two minutes of play, Thebo running twenty-five yards around left end for a touchdown. This was the only goal that Paige failed to kick. Warner then kicked off to Cronkhite, who returned the ball twenty-five yards, then by successive end plays and line bucks the ball was brought down the field and Gulnac was sent around right end for another touchdown. Thebo made ten yards when downed and then Paige punted. The visitors here made their five yards but were soon forced to punt. The ball was advanced to the centre of the field by short end plays, when Cronkhite went through right tackle for a touchdown. Warner then kicked off to Cronkhite who advanced the ball to the centre of the field, Thebo made three yards around left end and then Mallery made a fifty-yard run around left end for another touchdown. On the next kick-off Union advanced the ball to Hobart's twenty-yards line, when Paige circled the left end for a touchdown. In the second half the visitors put up a better defensive game than they did in the first half and the Garnet scored but one touchdown. Warner kicked off to Shaw. The ball was advanced steadily, Patton making a thirty yards run around right end to Hobart's two yards line. Gulnac was then pushed over for a touchdown. Every man on the Union eleven took a conspicuous part in the game and played his position excellently. Union had no difficulty in making their five yards. Foley, Hutton, Warner and Maddigan played a good game for Hobart, making some fine tackles.

The line-up and summary:

Thebo...........Left End........Van Slyke
Finegan ..........Left Tackle........Whitney
Bryan..........Left Guard........Heussler
Griswold........Centre........Mount
Collier..........Right Guard........Summers
Shaw..........Right Tackle........Hollands
Patton..........Right End........Shepard
Cronkhite......Quarter..........Maddigan
Mallery (Capt.)...Left Halfback........Foley
Gulnac.........Right Halfback........Hutton
Paige................Fullback........Warner (Capt.)

FOOTBALL PROSPECTS.

It is probably needless to say that the coach committee has re-engaged "Bill" Smith '99 for coach. And it is also needless to say that their action meets with the most hearty approval of the whole student body. "Bill's" familiar face is seen every day on the campus and his presence is positive assurance that Union's team will surpass the teams of colleges of her class. Already there are three victories to her credit.

The outlook is very bright. With the exception of three men—Fenton, Carver and Olmsted—all of last year's team are back and will play. Fenton has graduated, Carver will be unable to play on account of too much work and Olmsted because of a recent surgical operation. Fenton's place will be very thoroughly filled by Bryan of Auburn who has entered the Law school. Bryan is a player of large ability and experience and is well known to Union men and to the football world. He played left guard on Union's '99 team and made a great record at that time
Carver, captain of the 1900 team, will be sorely missed and it is no easy matter to find his match behind the line both as a ground gainer and as a vigorous defensive player. Olmsted's place at right end presents the greatest difficulty to the coach as no one has yet appeared in college who is as satisfactory an end as played there last year. The candidates for right end at present are Patton of '05 and Hawkes, '02. Griswold's return to college last Wednesday has relieved all doubts as to the center of the line. He is in fairly good condition and is expected to rapidly get into shape. Collier will probably again fill the position of right guard. Raymond is also a strong candidate for the middle of the line.

As to Finnegan and Shaw at tackle, left and right respectively, comment is unnecessary. It is sufficient to say that they will be there. Behind the line Paige will fill the fullback's place. His game seems to be fully up to the standard he has set himself in former years. In the Laureate game he had no trouble in plunging through the center. He punts as well or better than ever.

Captain Mallery will play left-half and Gunacn right. Mulvaney is also being tried at halfback and gives promise of becoming a good man. At quarter there are four candidates—Cronkhite, Anderson, Sherrill and E. King, '05. Of these present indications are most favorable to Cronkhite or Anderson. Their work is about on a par and definite statements cannot be made at present. Both men are light but for their weight are strong players. Other likely candidates are Becker, '05, for the line, and Holmes, '05, behind the line.

The team has been greatly handicapped so far this season by unavoidable interruptions to the practice caused by suspension of college exercises. The team has been unable at any one time to have several consecutive days of good practice. But from now on practice will be rushed as much as is consistent with keeping the men in proper condition.

One thing which will be of assistance and absolutely essential is a large scrub every day. Any man who cares for football should present himself for practice every afternoon. This applies especially to freshmen who may not as yet know their capabilities on the gridiron. The fact that the management has arranged a game for the second eleven in Johnstown for the 12th of the month ought to act as an additional incentive for men to try for places on the scrub. There is still plenty of room for good material, and the scrub will be awarded with several little trips during the season.

The following is the corrected schedule of the 'varsity.

Oct. 12—Cornell at Ithaca.
Oct. 16—Amherst at Amherst.
Oct. 19—Colgate at Schenectady.
Nov. 2—Syracuse at Schenectady.
Nov. 5—University of Vermont at Schenectady.
Nov. 9—University of Rochester at Rochester.
Nov. 16—Brown at Providence.
Nov. 20—Rutgers at New Brunswick.
Nov. 23—New York University at New York.

The last three games of the schedule will be made on one trip occupying a week.
