Dear Mr. Brown,

Since receiving your letter of January 27, I have made several attempts to secure additional information for you about Carlton Todd, M. D. Class of 1811 who died at Fredonia in 1829.

The only record I have found which in any way seems to be authentic is from the Fredonia Censor of Wednesday, May 13, 1829 in which appears an article as follows: 'Died in this Village on Saturday last Dr. Carlton Todd of the firm of Todd & Douglass, one of our most active and enterprising merchants, aged 23 years. He has left a young wife and young child.'

An advertisement appearing in this same issue would lead one to believe that Dr. Carlton Todd was a member of the firm of Todd and Douglass, Druggists who, in this advertisement, were advertising some form of patent medicine.

I also find that in 1811 one Delia Todd moved from Herkimer County to Stockton, N. Y. bringing with her fifteen children, most of whom were boys. I am unable to learn whether or not Dr. Carlton Todd was in any way related to the above mentioned Delia Todd but thought perhaps the information that she came to Stockton from Herkimer County might enable you to get some history from the Herkimer County records which might establish a connection between the two. The Town of Stockton is a small village located about twelve miles southwest of Fredonia.

Regretting my inability to give you more definite information, I remain

Very truly yours,

[Signature]

W.S.
